PRINTING

Our patterns are made to fit both US Letter and A4 Printing paper.

Open the files using a PDF viewer. We recommend using Adobe Reader or Adobe Acrobat for best results on either a Mac or PC.

Visit http://get.adobe.com/reader/ to download for free; Adobe Reader if you don't already have it.

Print the files making sure that the document is at **100%**.

PATTERN GRID MEASURES: 2.5CM X 2.5CM / 1" X 1".

Please note:** Page Scaling is usually on by default when printing and will print your pattern at the wrong size. Please make sure that Page scaling is disabled, by changing **PAGE SCALING TO NONE.

ASSEMBLY

Prepare the printed pattern sheets by trimming off one side and either the top or the bottom to the bounding box. The remaining edges will assist in the pattern assemble.

We recommend using a paper trimmer or a craft knife and ruler to trim the sheets.

On each sheet to be attached to another sheet, you'll find easy to follow registration marks; i.e. 2A to be joined up with 2A. Use the diagram below to assist you in assembling the pattern sheets. Align each printed sheet with the corresponding marker and grid lines, tape to secure. Once the pattern is assembled it is ready to use.
